## How we do it

**With a framework that works.** Our Px3™ model breaks down the employee experience into three layers: Think, Feel & Do. This structure helps leaders understand what’s really going on and what to do about it.

**With care and collaboration.** We work closely with our clients to co-create solutions that reflect their culture and goals. Our values: Dream Big, Make it Happen, Do the Right Thing, and Care, guide everything we do.
