

Laura Jones

Head of HR at Pest Control Partnership

“Unlike anything we've seen before”

“Partnering with The People Experience Hub for our first engagement survey has been a game-changer. From the outset, the platform stood out for its intuitive design and powerful data analytics - unlike anything we've seen before. Where other systems can feel clunky and limiting, The People Experience Hub is user-friendly, highly interactive, and genuinely enjoyable to use. The dashboards allow us to explore data at a granular level, giving us clear, actionable insights that support strategic decision-making.

We rolled out the survey across the UK and France, and the feedback has been overwhelmingly positive - especially from our field-based teams who could easily access the survey via QR code. This accessibility was a big win for engagement.

What's more, the service we received from our Client Success Manager, Merin has been exceptional. Despite our tight turnaround time, the team was responsive, flexible, and went above and beyond to accommodate customisation requests. Nothing was ever too much trouble.

Thanks to The People Experience Hub, we've not only launched a successful first survey - we've also laid strong foundations for a culture of continuous feedback and improvement.”
